#### 1. Problem Statement:

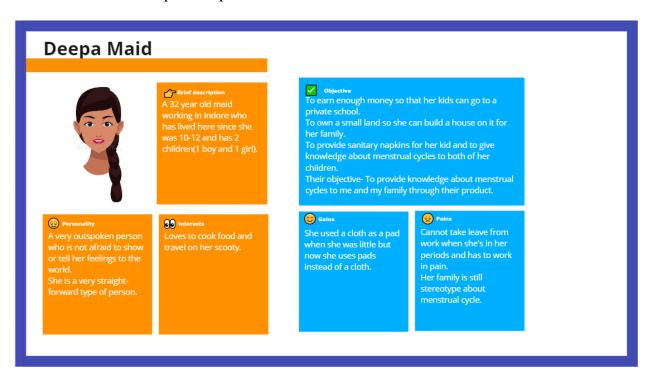

At least 500 million women and girls globally lack adequate facilities for menstrual hygiene management (MHM). A worryingly low figure of 48.2% of women in rural India uses hygienic protection. The 14-year-old was made to stay alone in a hut when Cyclone Gaja descended on Tamil Nadu as she was on her period. S. Vijaya, a class 7 student, was being made to stay alone in a hut nearby and in the wee hours of November 17, her corpse was recovered. Apparently, she had died after a coconut tree fell on the hut. The Ministry of Health and Family Welfare has introduced a scheme for the promotion of menstrual hygiene among adolescent girls in the age group of 10-19 years in rural areas. Develop an interactive booklet or a comic character of a young girl making girls aware of female Personal hygiene issues in an interactive and easily understandable way.

# वह अपने पीरियड्स पर शर्मिंदा होना सीखती है, क्योंकि हम उसे दूर देखना सिखाते हैं।

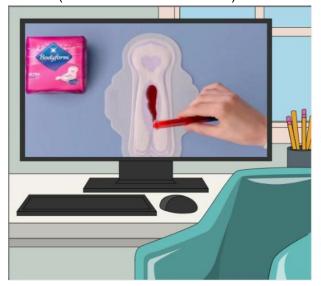

Scene 1 (What is should have been)

Scene 2 (What is should have been)

बेटों से बात करो और उन्हें सिखाओ कि पीरियड्स सामान्य हैं और किसी भी लड़की को इसके लिए शर्मिंदा नहीं होना चाहिए।
